SUMMARY

I'm Soumyanil Das, primarily a Front End Developer from Calcutta who likes to mix code with creative, interactive and modern designs.

SKILLS

Angular • JavaScript • TypeScript • HTML5 • CSS • RxJS • Jest • SASS • Bootstrap • Vue.js • Firebase

EXPERIENCE

CBNITS, Kolkata - SME - Frontend

Sep 2021 - Present

- Spearheaded the development and maintenance of the Homepage, Reports, and Netskope Advanced Analytics as a Subject Matter Expert at CBNITS.
- Collaborated with cross-functional teams to fix bugs and address customer issues, improving user experience and customer satisfaction.
- Actively contributed to code reviews and provided constructive feedback to enhance code quality, maintainability, and performance.

Capital Numbers, Kolkata - Frontend Developer

May 2020 - Sep 2021

- Developed interactive and modern UI/UX for web and mobile users using Vue and Ionic Vue frameworks.
- Utilised REST APIs built in WordPress to fetch data from a centralised casino database, ensuring seamless integration and real-time data updates.

Logic Square, Kolkata - Frontend Developer

May 2018 - May 2020

- Collaborated with Angular, Ionic 3/4, and Vue.js frameworks to develop dynamic web and mobile applications.
- Took ownership of delivering web and mobile apps tailored to client's specific business requirements, providing effective solutions to their challenges.
